Vision

World Federation Athletic Training & Therapy will be recognized as an essential part of multidisciplinary health care teams worldwide.

Strategic Goals

Enhance our international contribution to the optimal health care of physically active populations
Provide leadership and expertise to advance education
Develop a representative governance structure that engages our members
Develop a sustainable funding model
Develop the values and principles representative of the WFATT

Activating Our Plan

Reorganizing our administrative structure
Creating a sustainable funding model
Establishing international relations with countries and organizations interested in the development of the Athletic Training and Therapy profession
Promoting the Mutual Recognition Agreement for Athletic Training and Therapy (MRA) to include other countries in addition to the current three members (BOC, CATA, ARTI)
Establishing and strengthen relationships with other international sports organizations
Mentoring interested academic institutions in the development of athletic training and therapy curricula
